WHERE IoT POWERS SMART SUPPLY CHAINS

CT 1000

Simpler tracking. Smarter decisions.

The CT 1000 delivers cost-effective asset visibility, driving efficiency and boosting cargo security. Fleet and intermodal managers can improve utilization and optimize operations by monitoring asset location, status, starts, and stops across multiple asset types.

Better fleet management
Gain insights into fleet efficiency with current and historical location reporting. Identify critical movements that impact operations with geofencing for better asset management.

Easy to deploy
Designed for quick, cost-effective deployment with minimal asset downtime and upkeep thanks to its solar-powered battery and over-the-air updates. Install in as little as one minute, configure in as few as four minutes.

Durable
ATEX Zone 2 rated, the CT 1000 is built with a rugged enclosure that is resistant to dust and water.

Stay connected virtually anywhere
Our global IoT SIM delivers connectivity on 565 networks across 180 countries to support trailer and intermodal containers–no matter where they roam.
